INTERGENERATIONAL MUSIC MAKING

Generations of Music

Connecting and bringing together generations in their local communities through intergenerational music projects

OUR MISSION:

Our mission is to promote and develop creativity in local communities throughout the UK by creating important partnerships between the Health and Education sector. We bring together the younger and older generations to build a happier and stronger community, tackle isolation and assist those living with dementia or mental health issues.

At IMM we:

- Reduce isolation.
- Improve sense of self-worth and self-esteem for older and younger alike.
- Increase community cohesion.
- Encourage promotion of memory and identification.
- Improve the lives of those living with dementia.

We offer a variety of different services, these include:

- Intergenerational music projects for schools, colleges and universities
- Training - working with healthcare professionals in care settings and carers in the community to have the confidence and skills to use person-centred music with older adults
- Intergenerational care home choirs
- Intergenerational music workshops and performances

“

Making music with the children has been the highlight of my week. They give me energy and a purpose to get up in the morning. I so look forward to our music sessions and the singing just makes me so happy.

Isabelle - resident
